## SUMMARY

I am a full-stack developer who is proficient in Java, C, and HTML/CSS. I prefer frameworks such as MERN and Spring Boot for developing advanced online apps. I hold Red Hat, Oracle Java, and Salesforce AI certifications, and I've completed internships in AI/ML and web development. I work to fix real-world problems, improve user interfaces, and ensure that users have meaningful experiences.

## EXPERIENCE

### Web Developer Intern

Prodigy InfoTech

May-Jun 2024 (Remote)

- Created a responsive company website UI with HTML and CSS.
- Created a stopwatch application with start, lap, pause, and reset features.
- Developed an interactive Tic-Tac-Toe game that shows the winner without data persistence.
- Developed a personal portfolio to highlight projects and skills.

### AI/ML Intern

SlashMark

May-Jun 2024 (Remote)

- Gained hands-on experience with real-world AI/ML project workflows.
- Developed and implemented NLP-based solutions for text analysis.
- Improved skills in code comprehension, debugging, and version control.

## CERTIFICATIONS
